DETAILED ACTION

This Office Action is in response to amendments/arguments filed 12/24/2008. Currently, claims 1, 5-8, 10-14, and 16-24 are pending in the instant application.

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 12/24/2008 has been entered.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Suzin C. Bailey on 4/17/2009.

The application has been amended as follows:

In claim 1, line 8, ", extending radially from the central hole," has been added after indentations and before that.

In claim 6, line 2, "curvilinear" has been added after the and before indentations.

In claim 10, line 9, "an outermost edge of" has been added after "to" and before "said rim."

In claim 10, line 9, "the outer most edge of" has been added after "meet" and before "said rim."

In claim 12, line 2, "curvilinear" has been added before "said" and after "indentations."

The following is an examiner's statement of reasons for allowance: the prior art of record does not teach or suggest an adhesive patch comprising a first section with a indentations radially extending from central hole, indentations encircling the central hole and crossing the radial indentations, a second set of indentations surrounding the first section, and third section surrounding the second section having curvilinear indentations. The prior art also does not teach or suggest curvilinear indentations that extend to the outer most edge of the rim and meet the edge at an angle other than 90 or 180 degrees.

CONCLUSION

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to BRANDON JACKSON whose telephone number is (571)272-3414. The examiner can normally be reached on Monday - Friday 8-5:30.
